Sirs,

This letter is written in support of the Microsoft Settlement with the hope that the already negotiated agreement will be finalized so that all parties will be bound by it and therefore complete the agreement forthwith. It is important that Microsoft competitors and some misguided states attorneys general are forced to comply with the already negotiated settlement and finish this protracted bloodletting at once.

Respectfully,

David C. Mactye, M. D., PO Box 50, West Bloomfield, NY 14618
